## Education

Bachelor of Science in Data Science

Emerson University, Multan | Currently in 5th Semester

- Developing strong analytical and problem-solving skills
- Building expertise in data analysis and computational thinking
- Applying technical knowledge to web development projects

## Professional Profile

Results-driven Frontend Developer with strong expertise in custom web development using HTML, CSS, JavaScript, and Bootstrap. Specializing in creating responsive, modern websites with exceptional attention to design and performance. Currently expanding skills in WordPress development to provide clients with flexible, easy-to-manage solutions while leveraging coding background for advanced customizations beyond typical WordPress capabilities. Committed to delivering fast, SEO-friendly websites with clean code and excellent user experience.

## Technical Skills

- Frontend Development: HTML5, CSS3, JavaScript (ES6+), Bootstrap, Responsive Design, Mobile-First Development
- WordPress: Theme Customization, Plugin Integration, Custom Styling, Site Setup & Configuration
- Design & UX: Modern UI Design, User Experience, Cross-Browser Compatibility, Performance Optimization
- Tools & Workflow: Git/GitHub, Visual Studio Code, Chrome DevTools, Responsive Testing, Web Hosting

## Portfolio Projects

- Foodie – Modern restaurant website with responsive design, smooth animations, and optimized performance. Built with HTML, CSS, and JavaScript.
- Masood Rehman – Professional business website with custom design and functionality, demonstrating clean code architecture and user-focused layout.
- PIZZA – Interactive pizza ordering website with dynamic menu display and responsive grid system using Bootstrap framework.
